

# DURASCREEN

— SYSTEMS —

THE ONLY SCREEN YOU'LL EVER NEED.

INSTALL BOTH  
SCREENS & VINYL  
PANELS FOR  
THE ULTIMATE  
IN WEATHER  
PROTECTION

## WHY DURASCREEN?

We make screens — big ones, tough ones, long lasting and fully customizable — the only screen you'll ever need. With the exacting standards you expect from an American manufacturer, we build our screens to be tough as nails and beautiful. DuraScreens can stretch into any shape (bring on the trapezoids), with a drum-tight, no-sag fit. Choose either fixed panel or retractable screens that open and close on whisper-quiet motors and disappear completely. Seriously, name your application and we've got a screen for that. Bring the outdoors in, without the unwanted guests, and increase your living space with a cool, comfortable, pest-free sanctuary.

WHISPER QUIET  
CUSTOMIZABLE  
BUILT TO LAST

## PATIOS

Barbecues are a breeze on your DuraScreen enclosed patio. Sample nature's relaxing breezes and sounds without getting rain-soaked, sunburned, harassed by pests, or stung by errant golf balls. More time outdoors in the comfort of your enclosed patio means more time enjoying life.

## GARAGES/BARNES

KEEP YOUR WORK SPACE COOL & COMFORTABLE

The only thing in your garage or barn working harder than you, is your DuraScreen. Torture-tested to withstand anything from the brutal forces of nature to a head-on impact from a 225 pound man, DuraScreens can take anything you can throw at them, and snap back to no-wear shape and tight finish.

## RESTAURANTS

EXTEND PATIO  
SEASON WITH  
VINYL PANELS

Let's go al fresco! Nothing beats enjoying a relaxing meal with a view and a light breeze. You work hard to provide the best atmosphere for your diners — don't let mother nature eat their lunch. DuraScreens enclose any dining space so family and friends can savor your restaurant's outdoor ambiance.
